

## Customized Controls for Infectious Diseases-Assays

### THE READY-TO-USE CONCEPT

Our **Ready-to-use** concept means that the controls can remain directly in the carrier or robots of the test system. The additional step of refilling of the controls manually from conventional dropper bottles into the vials of the carrier is no longer necessary. Less dead volume is required for multi analyte measurements in a single vial, thus saving the customer valuable control material.

### ADVANTAGES

- No manual pipetting necessarily
- High yield
- Less sources of error and better protection against contamination

### PROPERTIES

- Manufactured from 100% human plasma
- 2 years stable at 2-8 °C
- 90 days open stability
- Negative tested for anti-HIV, anti-HCV & HBsAg

### DESIGNED FOR YOUR DEMAND

- Labelled according to customer needs
- Predefined control limits
- According to the production process no lot-to-lot titer shifts
- Barcode labels available

### SPECIFICATION

Controls which contains antibodies against all infectious diseases like

- **BloodBank:** anti-HIV 1, anti-HCV, HBsAg, anti-HBc IgG, etc.
- **ToRCH (IgG / IgM):** anti-*Toxoplasma*, anti-Rubella, anti-CMV, anti-HSV 1, anti-EBV VCA, anti-EBV EBNA
- **Pediatric (IgG / IgM):** anti-Measles, anti-Mumps, anti-Parvo B19, anti-VZV, etc.
- **Hepatitis (IgG / IgM):** anti-HAV, anti-HBs, anti-HBe, anti-HEV, HBeAg, etc.

### UNIT SIZE

Volume of vials 0.5 to 5 mL

Please fill in your demand and we forward a customized offer to you.

## CUSTOMER INFORMATION:

|                             |  |
|-----------------------------|--|
| Institute / Company address |  |
| Phone                       |  |
| Email                       |  |
| Contact person              |  |

## CONTROL DESIGN (SINGLE CONTROL):

|   | Analyte | Expected S/CO | Assay | Analyzer | Expected annual volume (l) |
|---|---------|---------------|-------|----------|----------------------------|
| 1 |         |               |       |          |                            |
| 2 |         |               |       |          |                            |

## CONTROL DESIGN (MULTIMARKER CONTROL):

|   | Analyzer                   |               |       |  |
|---|----------------------------|---------------|-------|--|
|   | Expected annual volume (l) |               |       |  |
|   | Analyte                    | Expected S/CO | Assay |  |
| 1 |                            |               |       |  |
| 2 |                            |               |       |  |
| 3 |                            |               |       |  |
| 4 |                            |               |       |  |

## PACKAGING DETAILS:

|  |  |
|--|--|
| How much volume per vial?                                  |  |
| How many vials per kit?                                    |  |
| Do you need a barcode label?<br>If yes, which one?         |  |
| Do you use Diamex primary<br>container? if not, which one? |  |
